RIDE ON SLED TRAILER FATAL TO ORLO DUNLAP

Sled Swerves Into Path of Another Car While Rounding Curve—Granville Boy Instantly Killed.

Granville, Jan. 23.—Orlo Dunlap, 15, year old son of Mr. and Mrs. Orlo Dunlap, was instantly killed Saturday evening about 10 o'clock.

Dunlap, with friend Owen James Radford and Joseph Head were riding on a sled which was hitched to a machine driven by Emerson Owen of Lodi street.

The machine with the sled was traying east on Broadway, as they struck Putney's curve, the sled swaying out to the left in the path of a machine coming west, driven by Vernon Burns of Lodi street.

The boys saw their danger and all rolled off the sled, but Dunlap was not quick enough. It is the belief of those on the sled that the bumper struck Dunlap.

He was picked up and thought to be unconscious and rushed to the office of Dr. C. J. Loveless, who found that he was dead. It was Dr. Loveless' opinion that the fracture of the skull which he suffered caused almost instant death. His left leg was also broken.

The parents, one brother Alvin and a sister Hazel survive.

Funeral services will be held Tuesday afternoon at 2 o'clock and burial will be made in Alpine Grove cemetery.

VIETMIER FIRES SHOT INTO HEAD

Uses Old Fashioned, Four-Chambered Pistol, Firing Two Bullets Simultaneously—Had Been Ill.

Mathias J. Vietmier, 67, committed suicide early this morning at his home 187 Eleventh street. Death was caused by two bullets fired simultaneously from an old fashioned pistol.

He had been ill for several weeks and had become very dependent and was thought to have been mentally deranged.

The bullets penetrated the right side of the head near the ear and entered about two inches apart. The pistol was of old style, with four small barrels and of single action. The gun fires two bullets simultaneously.

Thirty-one years ago he was engaged in a small way in the dry goods and notions business in Cleveland and not content with the progress he was making he went home one day and told his wife that he intended to seek a new location and

begin business in earnest. He gave his wife all of the money he had except a five dollar bill and then going to the railway station asked the ticket agent to sell him a \$4 ticket.

Mr. Schonberg has acquired from the old man on the south side of the railroad a strip of land the young man who represented the railroad, a strip of land the railway company.

"It makes no difference," replied Schonberg, "just give me a ticket costing \$4, I don't care whether it's east, west or south."

The surprised young man looked at his timetable and suggested Columbus, adding "in fact, just go to Newark." So Schonberg got on the 12:30 P. M. train to Newark.

"Make it Newark," said Schonberg and in ten minutes he was enroute to Shely. He arrived here on the 12:30 P. M. and O. train from the north, walked from the station to the public square and inquired the way to a wholesale notion house. Being directed to the Ashbrook store on South Third street he invested \$0 cents of the ninety he possessed in stationery and quickly sold it in nearly store. Returning to Ashbrook he bought a larger stock and repeated the performance several times, clearing that afternoon \$6 through the sale of stationery. He remarked with a smile that he remembered having sold \$1.50 worth of paper to a single customer that first day in Newark. Continuing in this way for about three months, he then bought a horse and cart and went about the county buying junk. Later he visited towns in adjoining counties, at one time driving over 100 miles a day.

He was making so well he went home one day and told his wife that he intended to seek a new location and

begin business in earnest. He gave his wife all of the money he had except a five dollar bill and then going to the railway station asked the ticket agent to sell him a \$4 ticket.

Mr. Schonberg has dealt in junk in a wholesale as well as retail way buying and selling large stocks.

And so the business grew and it grew rapidly. In recent years Mr. Schonberg has dealt in junk in a wholesale as well as retail way buying and selling large stocks.

He was a native of Newark, and his younger days he gave all of his time to breaking out and training horses.

He was still engaged in training ponies for families here in the city. He was a familiar figure in the race track and often frequented the B. and O. and Pennsylvania railroad tracks.

A Bible Thought for Today.

CONTENTMENT WITH GOOD.—Better is a little with the fear of the Lord than great treasure and trouble therewith.—Proverbs 15:16.

MAKING ROADS SAFE.

During recent years a great deal of money has been spent in making leading automobile roads safe. One special cause of expense has been cutting out sharp curves. Yet it is noted that widening and straightening these highways does not remove accidents.

Some of the worst places for automobile smashups are fine cement and bituminous roads, where all conditions are favorable but where speeders get out and race, and cut in ahead of other machines.

A recent study of accidents in the state of Maryland illustrates this idea. At the point where the state highway crosses the Blue Ridge mountains, where the grades are steep and curves sharp, but other accidents occurred in three months while this investigation was being made. But during the same three months, on the roads in the state between Baltimore and Frederick where there are 45 miles of the straightest road in the state, there were 22 accidents, seven of them fatal.

When it comes to sharp turns and bad grades, most drivers realize that there is peril, and exercise care. But when they get out on a wide and handsome thoroughfare, the speed devil takes possession of the minds of many and the result is a large set of disasters.

Such conditions raise a question as to whether it is possible to spend money with such freedom in removing every possible danger. It is not possible to eliminate all speeds, and motorists must learn to exercise a high degree of caution which assures safety.

Rather than spend millions to perfect feel drivers, it would seem better policy to put the money on the side roads that much out of the agricultural country, and give the farmers a hand in the matter of reducing the cost of raising food to market and reducing a burden on everybody.

NATIONAL DEFENSE.

Public sentiment demands a large-scale sinking of a number of ships in costly war ships, but this does not prove that the American people care safety national defense.

Some kinds of military preparation are terribly expensive, while others like the training of men to serve as army officers and the encouragement of aviation cost relatively little. Spending billions in his annual report urges the country to keep up the tempo of war, as always mentioned.

The nation that becomes strong in military preparation will be the one that is most likely to have to fight for its life. Genius to train young men in military science will promote manliness and efficiency. Encouragement of aviation will assist commercial success. These two lines of preparedness can be developed without spending very much money, and without making any one's pocket feel that the United States is looking over a

After spending billions like water on all kinds of ships and naval armaments the Germans claim they are bankrupt and can't pay for the damage they did.

You can't stop the world from putting birth upon its people, but analyze his organs of survival, confronting him with a few words.

SAVING WOOD WASTES.

(Scientific American) About 50 per cent of the annual lumber cut is now used in making boxes and crates, the kind of which are unsatisfactory in shape, size or construction. The National Forest Service has developed a system of saving the containers so that a good many millions of dollars worth of freight will be rescued from repetitions of previous disasters during transit, while large amounts of lumber which previously have been wasted—so far as satisfactory container service was concerned—will be saved. During a recent year, our domestic railroad, port and farm wagon lines carried \$100,000,000 for freight lost and damaged during shipments due to faulty boxes and crates. While pine alone formerly was used largely for containers, but now as a result of government experiments, 40 different kinds of wood are used, many of which are thinner and stronger and reduce car and cargo space from 10 to 40 per cent to an nothing of the direct economy of materials.

As a result of the prevalent practice of cutting small dimension material from finished lumber instead of from the logs, large wastes occur in the handle, spoke, chair, furniture, toy and agricultural implement industries. In the furniture business, from 40 to 60 per cent of the raw lumber is frequently wasted. Some lumber manufacturers claim that not infrequently it takes two cords of lumber to produce 400 pounds of satisfactory handles. Experts say that a saving of about 6,000,000,000 board feet a year can be effected if all the lumber which now is wasted by the industries could be saved and used as small dimension stock.

FROM MOTHER'S COOK BOOK

Candied Sweet Potatoes.

Three or 4 sweet potatoes, 4 tablespoons butter, 34 cup sugar, 1 tea-spoon salt.

Potato salted with a tea-spoon salt till tender but not really done. Cut in halves lengthwise and put in a buttered baking dish or dripping pan. Sprinkle with sugar, dot with butter and bake in a slow oven for an hour. The potatoes may be cooked with the cover on the dish for the first half hour. Then remove the cover and brown.

Sweet potatoes are candied in a frying pan on top of the stove there is great danger of burning. This method requires more time but less watching at the last minute when the whole dinner is being served.

The Ladies Aid of St. Paul's Lutheran church will entertain the pastor and his wife, Rev. and Mrs. G. D. Schmitt and congregation with a reception Thursday evening at the church.

The Silent Circle of The King's Daughters will meet Tuesday evening at 7:30 o'clock at the home of Mrs. S. D. McClure in 124 West Main street.

Professor E. P. Johnston will give a "Lady Windermere's Fan" at a meeting of the Progressive club which will be held Wednesday in the assembly room of the public library.

Mr. and Mrs. Henry Velling of North Thirteenth street entertained Thursday evening with a dinner honoring Mr. and Mrs. Wesley Dunn, who recently received many thanks after the accident were Mr. and Mrs. Harry Phillips, Mr. and Mrs. George Weber, Mr. and Mrs. Cal Gist, Mr. and Mrs. Alex Wilson, Mrs. Isa Inlow, Mrs. Treva Stricklin, Misses Eunice Wilson, Sarah Welsant, Frances Kelley, Messrs. George Wilson, Charles Stillion, Harry Stillion, and Mr. Moxley.

The Alpha Pi sorority has issued invitations for a birthday festival to be given at the Masonic Temple, Friday evening, February third. The Holmes Melody Five will arrange the dance program.

The Turkey's entertained with a dinner dance at 8:30 o'clock Friday evening, the event being the fourth of a series of dances. A three course dinner of attractive appointments.

A feature of the evening was a march given by the Python Sisters led by the Most Excellent Chief,

"Sometimes it is in my arm. Merely Heaven, how my back burns in the morning!" It's all due to an overabundance of that poison called uric acid. The kidneys are not able to get rid of it. Skin conditions you can really overcome and prolong life by taking the advice of Dr. Pierce, which is "keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking Anuric. This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalid Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times at night, take heed, before too late. Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send to Dr. Pierce ten cents for trial package.

For I go to bed at night—no swatting of grease and red flannel petticoat. Lots of soap and water and air and comfort, and no late at night eating, and thus will tread lightly.

The eating is the important factor. Most of us eat too much! One real meal a day is all you ever eat, or maybe two, have a soft, boiled egg, dry toast and tea. Then I never feel sluggish, to shopping with, nor am I involving at all.

Black—whether your eyes and hair are black or not—wear black specifically! But liquid rouge is most effective.

And you shoes—it isn't nearly so successful. Doesn't glare out away much whether your feet are large or small! It's whether you're clever enough to bring out their lines in more nearly natural,

plain, well cut black slippers or will make them look bumpy by wearing ornaments and tassels.

And—as for hair, it must be washed often—once a week I have mine shampooed—and brushed much. Plain soap and water is, after all, the best beautifier the world over.

The average woman, it is said, spends 10 years of her life in dress.

CHAPTER N. TUG OF WAR.

If Polly had followed her impulse, she would have put her head down and the mark of the experienced trial to see disaster in every unusual happenings.

"Then you don't think it's anything?"

"I think lots of things look disquieting on the surface that have perfectly commonplace explanations."

If Crenshaw had any fears, he

gave no sign, and in his answer, Polly somehow found comfort.

Still—why didn't Paul and Violet band come back?"

Family's Butter

You'll be glad to know you can serve all the Karo you want. This Great American Syrup can be bought at even better than the low pre-war prices

ONE big item of expense many mothers are cutting down nowadays is their butter bill. Children like pancakes, hot biscuits and toast even better with a big spread of Karo on them.

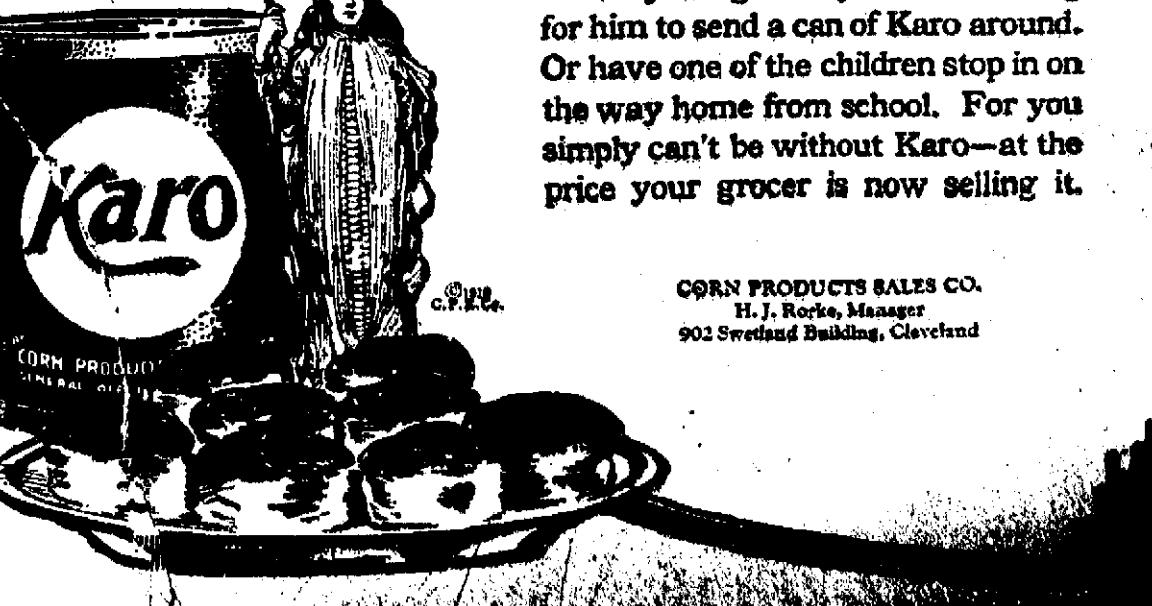

And it's wonderful for the youngsters, too. For Karo is a true health food—rich in strength and energy-yielding qualities.

Tell your grocer you are waiting for him to send a can of Karo around. Or have one of the children stop in on the way home from school. For you simply can't be without Karo—at the price your grocer is now selling it.

LIMIT THE SIZE OF STUDENT ENROLLMENT

Middletown, Conn., Jan. 23.—The limitation of the size of the undergraduate body, the problem of which was unique in collegiate circles when Wesleyan University set herself to solving it six years ago, has today become common to many colleges and universities.

When Dr. William Arnold Chapman was installed president of Wesleyan 12 years ago, he stated that the college would hold its enrollment as near as possible to 500 men; that she did not claim to teach all things to all men, but that her task was to teach the essential things to a small group of resolute and well-prepared students. Three years ago, Wesleyan's enrollment suddenly jumped from 500 to 600 men. At that time the president and the faculty requested the trustees to impose the 500 limit. This was done, and the size of the student body has been steadily reduced to near this number.

"It is desirable that a college should have as many students as its physical facilities and its instructional staff can properly care for. Beyond that point new students are a liability and not an asset," said Dr. Shanklin. "We are resolved not to yield to the craze for numbers. Wesleyan does not want more students, but desires to do work unequalled for those whom she does admit." Only 181 freshmen were admitted last fall, and the women came fully equipped, not more than three times as many applicants. With 623 undergraduates and 53 faculty members at present, there is a faculty advisor for every group of 10 students.

Cocoanut Oil Fine

For Washing Hair

If you want to get your hair in

good condition, be sure that what

you wash it with is good for what

you want to do with it. This

soap makes the hair bright and

very shiny. Milled soap

is good for this purpose and

is much better than

anything else you can use for shiny

hair, as the soap possibly injures

the hair.

The simple soap you will use

washes and rinses out easier than

soaps of Milled soap make an

difference in the coloring, texture

and consistency of the hair.

The soap is very strong and

lasts a long time.

You can get Milled soap at

any drug store. It is

very cheap and a few ounces

is enough to last everyone in the

house for months. Do save the drug

soaps when you buy them.

THE ACE OF HEARTS! REMAINS FOR MONDAY.

The Ace of Hearts, the Big Gold was sold out last night ever at the Auditorium here on Monday.

WILLIAM FARNUM IN FOX FEATURE FILM.

The Auditorium has been back after a long absence due to the strike of the WPA men, and is now open to please his many friends. He is here for two days, shooting scenes for the story "Tim Lander." William Farnum, a man with more than a touch of showiness, is appearing in "Lander" as Lord John, who is sent to Madelon to learn whether she has sold her insurance, but gets on the ship, but on the cargo he is supposed to be carrying. So when he has gone down and to his last moment, he orders Patricia, Madelon's maid, to bring him to his room. John overrules his maid, and takes her to his room, but she goes to him, and they are together again. John's maid, Emily, together with the maid, Madelon, blessed both couples.

Patricia Parker starts for a needed rest in the country, with her big Great Dane dog. She descended upon the bucolic surroundings of Silas Wainwright, an old friend of her father, and the most dignified and wortliest citizen of the little town of Wainwright.

At the time of her arrival, Silas was laying down the law to Horace Kane, a wealthy young dandy-bellied who thought he would like to be the husband of Emily, the Wainwright pride and joy, John Wainwright, the serious minded son of Silas, ably seconded his father. Her sense of justice and her protective instinct aroused, Patricia immediately took the part of Horace, and from then on determined to play Cupid for the romance of Emily and her dandy-bellied.

She reckoned without Mollie Morrison, the village vamp, who set a jaunty cap for Horace. Also, Patricia overlooked the fact that her instinct of conquest was leading her directly to John, the long faced wortliest bane of the Wainwright fire-side.

The prevaricant Patricia gets into disentanglement with Horace from his clinging vine, Mollie, and the heart-bitten elements into which she prettily descends with the bucolic John. Now, the winged girl, Mollie, comes to a whirlwind climax when Patricia has to call upon all her Broadway shrewdness to save

Patricia's John. Mollie's Medicine soothes and heals the lining of the breathing passages.

You are safe when you take Father John's Medicine because it is guaranteed free from alcohol or dangerous drugs in any form. Sixty-five years in use.

GLASS FACTORIES MAY NOT OPEN

Reduction in Price of Finished Product May Mean Another Wage Conference, Delaying Start.

(Special to the Advocate) Utica, Jan. 29.—The outlook for the Licking Glass factory to resume operation again February 1 is not as bright as it was a week ago. The manufacturers have been notified that glass took a 23 percent reduction, and as they expected to run this period, on the same scale that they run on last period, they had fires lit in their kilns and were getting things along pretty well to start. It would be necessary for the workers to take another cut, it would mean that a meeting would have to be called between the wage committee and manufacturers which would probably make the starting date a week or ten days later. There is also a possibility that they could not come to an agreement, and in such a case the Licking factory would not operate at all this period. Of course the Licking company will keep the fire going and keep their kilns warm, until something definite turns up.

The window glass workers took a 2 percent reduction on the period just finished, and another 10 percent reduction would put them back to pre-war wages.

Bill Hutton, the Utica wrestler, wrestled in Chicago Friday night and he will return for a match at Columbus tonight. His opponent has not been named for either match.

The Newark Pastimes handed the Coshocton Pastimes a thumping Saturday night on the local alleys by 20 pins. The local bowlers started off like a whirling the first game and Schenk and Holan helped make the second game over the first. In the third game, Holan led them from the start, but Huber and the Newark bowlers did it. As usual was the 20 pin for Coshocton.

Bowling Notes.

The game scheduled for Wednesday night between Kates Grocers and B. & O. will be held Tuesday night instead. All players take note.

The top, middle and bottom of the Pastimes league are all battling to hold their place and good games will be seen from now on in the league. Kates Grocers are holding first place by one game. The Pastimes hold third place by one game, and The Brix Candy Co. are holding out of the cellar by the same amount.

The Newark locals will journey to Mr. Vernon Tuesday night to go revenge on the devious Knox county team that Friday night on the Ideal alleys.

Logan bowlers will be the aggressors at the Pastime alleys Friday night when they come to meet the Ideals. The Logan boys have some good bowlers so the Ideals will have to keep going to win the victory.

Newark will be represented by three teams at the State Tournament which starts at the capital city of Marion first and two teams at the A. C. Tournament. The local bowlers of the Newark team from the local dogs, which bowls at Cleveland, February 5th at the K. C. Tournament, which shows Newark is still on the bowling map.

Louis Thorstein N. Burdette, formerly of the Norwegian Cavalry, presents a strange sight to Washington residents when a heavy snow is on the ground. He skis over and him at breakneck speed on his skis through the streets of the capital.

ICE HANDICAPS NAVIGATION.

Turin, Italy.—The severe winter which the whole of Central Europe is experiencing, has seriously handicapped the navigation of the Danube. The cold wave was so sudden that more than 50 vessels belonging to several nations have been caught in the ice and will be forced to lie up for the whole winter unless an unlock is found in the meantime.

PRUNCH ARE STILL THRIFTY.

Prague.—The French people have given up their habit of thrift and return to spending their extra money by spending them away in the pleasure gardens.

RUSSIANS WILL EARN BY PRODUCING

Volos.—Misery and suffering in Vitebsk among the Russian population are greater now than at any time since the overthrow of the tsarist government. The hands of the people are out of work, they have no food and most of them are semi-starved. To make matters worse the above conditions are described in a letter from Mrs. Pray, local representative to the officials of the American Red Cross Chapter in

sometime ago the chapter issued

an appeal to its members and a large sum was raised.

The amount only enough

to raise money in the purchase of

articles from which the Russian

people will make fancy needle

work. Samples of this work are now

on their way to Japan and the ladies

of the local chapter of the Red

Cross will take orders for this work

and forward the funds to the Vladivostok workers.

It is the intention of those directing this relief

work to call the Russian emigres by

telegraph and to let them know that

the market for the products

and furnish the initial capital.

FIGHT BEETLES WITH POISON GAS.

London.—The "death watch" beetle is being fought with poison gas in the ancient Westminster Hall, the scene of many memorable events in the life of Britain.

The famous beamed roof of carved oak, dating from the year 1300, was discovered some time ago to be infested by the beetles of wood-boring beetles.

The first gas vat was experimen-

ted with to kill the beetles nearly

two years ago.

As this gas is lighter than air

it penetrates into the hollows of the

adjacent House of Commons, and it

can therefore easily be used when

parliament is not sitting.
